The Housing Crisis Of Atlanta

Statement from ROOSEVELT The People's Mayor of Atlanta

Atlanta's leadership needs a complete redo. Unfortunately we have people in position who are just not people. They are politicians and when you are dealing with politicians, most of the time they have never been through any of the problems they are trying to address. This causes decisions to be made with a lack of understanding and lack of experience regarding the issue being dealt with. We need real people in power!

I've been homeless before, therefore addressing our housing issue is my first priority. Using executive powers under the emergency act, I will authorize my administration to find all legal avenues of creating immediate housing options via modular construction using land already owned by the city. We will not take no for an answer and will not stop until our homeless population is FULLY housed.

I will also introduce legislation to prevent developers from raising rent prices beyond control, require complexes to maintain their properties and install protections for renters in the event of eviction.

Atlanta, I hope you're ready... Change is coming!

Roosevelt Searles III

The People's Mayor Of Atlanta
